Profile

Junior Java Full Stack Developer with a BBA background, skilled in Java, web development, and front-end design. Experienced in building portfolio projects using Java, HTML and CSS Strong foundation in both frontend and backend development, eager to apply technical skills in a dynamic development team. Passionate about continuous learning and problem-solving.

Technical Skills

- Java (Core Java, OOPs)
- HMTL, CSS
- MySQL

Experience and Projects

1. Portfolio Website

- Developed a responsive portfolio website using HTML, CSS to showcase projects and skills.
- Implemented interactive features and optimized for cross-browser compatibility.

2. Movie blog website

- Designed and developed a visually engaging movie platform focusing on “Top 10 Movies in Kollywood” using HTML and CSS.
- The overall layout makes it easy for users to discover and learn about acclaimed movies, making it suitable for movie enthusiasts looking for top recommendations in major industry.

3. Corse Registration form

- Built a functional and user-friendly course registration form with Html and CSS.
- Designed the form with responsive layout to provide a smooth registration experience.
